THE Democrats of Maine have warmly endorsed the present Administration, which leaves the public to the inference that their solidity is undisturbed by the recent wild stirring of the mackerel and Home Rule questions.

A PUBLIC statement from Mr. BLAINE is not complete and characteristic till followed up with the usual authentic denial. It is true that the denials are generally unfortunate in the time and manner of their appearance, but they are sure to come, nevertheless.

A SPECIAL dispatch from Louisville speaks of the burglary of the office of the Frankfort Lottery Company as "one of the most daring pieces of burglary ever worked in this city," yet one would think that a single robbery would hardly be worth noticing in the office of a lottery that has had a successful career for years.

It would be hard to find a more flagrant case of wanton trifling with valuable public interests than in the suddenly collapsed strike of the street car men in New York. An attempt was made to "ride up" the whole street car travel of some two millions of people, and when it came to a test, the pretext was so thin that in twenty-four hours there was no trace of the strike. It had disappeared utterly. One such incident does more harm to the best interests of labor than could be done by the united energies of a dozen corporations in a year.

THE sermon preached last Sunday by Mr. BRECHER is very important in setting forth explicitly his belief about a future state and shows that he discards both universalism and eternal punishment. He believes that the good and pious will be received into heaven at once when they die; that the wicked and ungodly will undergo annihilation as their portion; and that a third class, consisting of bad people who are not hopelessly reprobate, will be received into heaven after a probationary course of discipline, punishment and spiritual development.

THE latest charge brought against the President is that he is staying at the same cottage with ex-Senator DAVIS, the father-in-law of STEVE ELKINS, who is declared to be in partnership with JAMES G. BLAINE in a railroad speculation. It is probable that he has in view the regeneration of the ex-Senator. Even as good a man as Gov. HILL of New York was the law partner of TREWED many years before the fall and ruin of the boss, but the partnership was not continued long enough to materially improve TREWED. It is hoped that ex-Senator DAVIS will derive substantial benefit from his new associations.

JUDGE FULLERTON has revived the ugly spook of the Confederate war debt and has made an argument before the House Committee on War Claims in favor of paying it. The supposed purpose of this burlesque argument, it is thought, is to temporarily raise the price of Confederate bonds in European markets. Mr. TRUCKER, perhaps the ablest constitutional lawyer in the House, says: "I do not 'know of any way in law or equity that the United States Government can be 'held responsible for the debts of the 'Confederacy.' It is safe to say that even the negroes who fell easy victims to the forty-acre-and-a-mule deception cannot now be fooled with the Confederate war debt trick.

THE St. Louis Socialists are said to be arranging for a monster demonstration on the Fourth of July, and it may be said that they have a right to make such a demonstration as long as their conduct involves no violation of law; but the fact that the specific aim of anarchy and socialism is to make war on all law renders it difficult for anarchists or socialists to hold strictly lawful demonstrations.

Their claim to the right of "free speech and quiet assemblage" no one can deny. But free speech becomes crime when it incites to riot and bloodshed; and even the right of quiet assemblage cannot be conceded to the avowed enemies of law and Government if they use it for purposes of criminal conspiracy.

LIMITING LAND HOLDINGS.

Talmage in his Sunday discourse on "Monopoly and Communism" predicted that the time will surely come when the possession of landed property in this country will be limited by fundamental law. The growing disposition to limit the acquisition of land was manifested very significantly in the Senate last week during the debate on the bill subjecting railroad land grants to local taxation. Senator Hoar offered an amendment providing that railroad lands sold for taxes should never be acquired in larger parcels than 60 acres, nor be purchasable by any person or corporation already owning that amount.

In opposing the application of this forcible condition perpetually to the title of a particular body of lands, Senator EVARTS, Senator GEORGE and others took occasion to intimate the importance of some general and universally applied law to prevent the aggregation of lands and to insure their distribution in limited holdings. A great deal was said about the evils of land monopoly and land in mortmain, and Senator GEORGE said these evils should be at least admonish Congress to retrace its footsteps and exert all its constitutional powers in the restoration to the public domain of all that is reclaimable of the 170,000,000 acres we have given in mortmain to corporations. The way to do this is plain and open. A declaration of forfeiture in the case of every land grant where the road was not built as provided for in the grant will do the business. Against every such act of forfeiture and re-entry the Supreme Court will fully protect the railroad title to every acre earned according to law, and only the lawfully reclaimable lands will be reclaimed by such acts of Congress.

WASHINGTON AND GRANT.

Gen. LOGAN's Memorial Day speech coupling the names of WASHINGTON and GRANT as the two greatest soldiers of the world, and asserting that in all authentic military history the work of WASHINGTON alone "approaches that of GRANT" has given offense to some of Gen. GRANT's admirers, and they are publishing elaborate articles treating the Revolutionary war as a very small skirmish and Gen. WASHINGTON as a very small potato in a military sense. Without disparagement to the great achievements and immortal fame of Gen. GRANT, the American people will deprecate and resent this sort of comparison between him and Gen. WASHINGTON, as just to neither. The circumstances and the tests by which they were tried, and the qualities requisite to success in the two wars were so different that there is really no logical basis for the dictum of a morning contemporary that GRANT would have succeeded in WASHINGTON's place while WASHINGTON would have failed in GRANT's place. Gen. GRANT fought to enforce the authority of a rich, powerful and popular Government against a revolt in the interest of slavery, a local institution condemned by the whole world. He had at his command resources and armies superior to the enemy's, and he used them well and successfully. Gen. WASHINGTON staked life and fortune as the leader of the rebellion of a few feeble colonies against the most powerful Government on earth. Never in his life did Gen. GRANT have to stake so much against such odds or to fight with a price set on his head as a traitor, and with a gibbet looming up for him through the smoke of battle. But each proved himself the man for the occasion. The country owes to each a boundless debt of honor and gratitude, and will regard as unwarranted the invidious assertion that GRANT would have been a better leader for our forefathers than WASHINGTON was, and that WASHINGTON could not have suppressed the Southern Confederacy. Such speculative inferences drawn from illogical comparisons are not only absurd but offensive to the sentiment with which the memory of such heroes and National benefactors should be cherished.

THE FARMER AND THE RAILROAD.

About a week ago the Chicago Tribune made in its editorial columns the following statement, of which there has been no retraction or denial:

A receiver in this city yesterday forwarded to a shipper in Nebraska just five cents per bushel as his share on a consignment of corn.

The property had been sold in store here at 70 cents per bushel, 20 of which went to pay railroad cost of transportation, the storage and commission. In another case this week the Nebraska shipper received the magnificent sum of \$90.00, being the whole amount coming to him from the sale of a carload of some 300 bushels of corn, the railroad freight on which to this city was \$147.50. The average of charges on these two parcels was five times, and the warehouse charges alone one quarter, the sum remitted to the consignor.

As Mr. BRECHER reads the premature obituary of himself, he may get some important "tips" and "pointers."

MR. BRECHER says that he has "too much reasonableness." This is what many people have suspected for a long time.

It seems that the President is going to lose a part of the female vote of St. Louis on account of the way in which he got married.

The prohibition spook steadily grows along the Atlantic seaboard, and the camp of the faithful is alarmed at the menacing apparition.

It is a pity that the manner and place of the President's wedding were not settled in advance by a primary election of a national convention.

"MARY L. SMILEY," the beautiful dame who chewed up the Spectator a few years ago, is now chewing up Mr. and Mrs. CLEVELAND. MARY's jaw is still sound.

MR. CHAS. DANA, with strange forgetfulness, has failed to tell the country whether Mrs. CLEVELAND ate toasted cheese with her fingers or her fork. MR. DANA uses his fingers.

Simplicity of the Wedding.

From the London Telegraph, June 5.

The absence of affectation, and, indeed, the downright homeliness displayed at the White House when Mr. Cleveland and Miss Folson were made one, may have been intended by an eminently sensible Chief Magistrate as a protest against the inordinate luxury and extravagance which, in modern times, have characterized the majority of the weddings of the upper ten thousand in the States. Austere Republicans will rub their hands with glee when they hear that the number of guests at this Spartan marriage did not exceed twenty-five, including members of both families. Where so much want and misery stand in such grim and close proximity to untold wealth and unbridled luxury, it seems both a sagacious and graceful act on the part of Mr. Cleveland to show that the President of the United States does not derogate from his exalted position by making his wedding the plainest and simplest of affairs.

Inventors the Dupes of Capitalists.

From the Cleveland Leader.

As the Cleveland Leader has been told by people who may hear that the number of guests at this Spartan marriage did not exceed twenty-five, including members of both families. Where so much want and misery stand in such grim and close proximity to untold wealth and unbridled luxury, it seems both a sagacious and graceful act on the part of Mr. Cleveland to show that the President of the United States does not derogate from his exalted position by making his wedding the plainest and simplest of affairs.

THE Lancaster Appointment.

From the Lancashire Telegraph.

The appointment was an outrage on common honesty and a humiliating disgrace to the Democrats of the State. Mr. Lancaster is wholly unfit for any position of trust and honor. His record is as damnable as political trickery and corruption can make it. In securing his appointment and confirmation Senator Vest outrages the honest Democratic sentiment of this State and proves himself unworthy the high trust committed to his care.

When the Postmaster Got "High."

From the Kansas City Times.

Nebraska's Postmaster, having been charged with being "roaring drunk," admitted the impeachment on two specifications. One was the time of Grover Cleveland's election; the other was when the Republican Postmaster was turned out and he was put in. While the Times finds little excuse for a "roaring drunk," it believes that if ever a man timed his drunks well that Nebraska Postmaster was the man.

Theophilus Blush Turned Loose.

From the New York Herald.

While Miss Folson was bidding a dear friend good-bye to a Herald reporter obtained a good view of the President's face. Her face is not only handsome—it is classic. Her brow is like the brow of a Greek goddess. Her eyes—soft and searching—are intellectual and full of spirit. The sweetest of smiles, ever changing, ever beautiful, play about her eyes like sunbeams.

MEN OF MARK.

The London Spectator calls Dr. Holmes the "American Montaigne."

ADVISES from ex-President Arthur's bedside are not of the most encouraging nature.

B. G. WALLER has been unanimously voted the ugliest man in the Vanderbilt University basketball team.

THE PRINCE OF WALES, an enthusiastic amateur photographer, purchased his camera and outfit in this country.

MR. W. M. LAFAYETTE, who succeeded I. W. England as the publisher of the New York Sun, receives \$100,000 a year.

GOV. ABBETT of New Jersey is one of the patentees of "a new device for regulating and enriching illuminating gas."

GOV. ROBERTS of Maine admits that the Administration has not everything in its power for the protection of American fishermen.

HENRY M. STANLEY is said to have conceived a violent dislike for the American press, which he says has treated him unfairly.

THE West Pointers are now undergoing their annual examinations. Alexander, the colored cadet, is said to stand fairly in the third class.

THE Rev. Dr. Sunderland's fee for marrying the President was a brand new \$100 bill. He has given it to his wife, who will keep it as a memento.

MR. JAMES H. MARR, Chief Clerk in the office of the First Assistant Postmaster-General, Tuesday entered upon his fifty-sixth year of continuous service in the Post-office Department.

THOS. W. FERRY, ex-United States Senator from Michigan and ex-Acting Vice-President of the United States, has returned to his home at Grand Haven, Mich., arriving at Detroit last Saturday.

EX-JAMES H. WILSON, who captured Jefferson Davis, and then managed the New York & New England Railroad, has been prospecting in China with a view to regulating the Yellow River, and possibly building some railroads.

WILLIAM RICHARDSON of Atlanta, Ga., has returned to his family and friends after an absence of twenty-six years. When he left home it was on an extended spree. A portion of the intermediate period was spent in Texas as a cowboy, where he was converted.

JEFFERSON is one of the wealthiest actors in America. He is not making so much money now as he used to do, for the simple reason that he does not give himself the trouble. He only works on the stage about sixteen weeks in the year, and this affords him all that he needs for his yearly maintenance, without at all impairing his capital. Mr. Jefferson's fortune is variously estimated at from \$400,000 to \$600,000.

GORDON S. HUBBARD is dying in Chicago, at the age of 85. He was the first trader who ever furnished the Indians with supplies at that point, was Chicago's first pork packer,

built the Chicago warehouses, raised Perry's famous flag-ship and with it and three other vessels founded the Eagle Line, the beginning of Western lake commerce. Over half a century ago, as agent of the American Fur Company, he made the trip between Mackinac and Fort Dearborn twenty-six times in an open boat. He remembers having entertained Jafon Davis once, many years ago, and having played cards with the Confederate chieftain far into the night.

WOMEN OF THE WORLD.

The little prayer-book which Mary Queen of Scots used at her death upon the scaffold was recently sold in London.

It is reported that Mrs. Patti has made an engagement with Henry E. Abbey for another farewell tour in the United States.

MRS. CATHERINE GABLE of Galesville, Pa., who celebrated the 101st anniversary of her birthday last December, died a few days ago.

MRS. DUTTA MORGAN SMITH, the latest rising young poet of the West, lives at Bloomington, Ill., and is a daughter of the late Gen. Morgan L. Smith.

THE Queen-Regent of Spain will maintain an educated at her private expense the children of some of the nobles in the recent tornado at Madrid.

A NEW female correspondent at Washington has aroused the jealousy of the reporters. She has several devoted slaves among the Congressmen, who spend hours every day gathering news for her.

MARY ANDERSON sailed for Europe on Wednesday accompanied by her stepfather and brother. She will not get out anywhere for a year or two, but will devote the time to travel and enjoyment.

DR. HENRY G. HANCOCK, to whom it was said Mrs. Murrell, the novelist, was engaged to be married, writes to the New York World denying the rumor. He says he has not yet been introduced to the lady.

MISS CAROLINE BOOTH, the Marchioness of the Salvation Army in Paris, says that she long ago had a vision of the word "reputation," because it would take too much time to defend her good name against her assailants.

MR. JUDG says to a Paris reporter who inquired of her how she was satisfied with her trip to America: "We are very pleased to think that it is over. Barrels of gold would not induce us to return there. Never!"

A CORRESPONDENT writes that a young woman in Washington makes a good living teaching American small talk to the young attaches of the Chinese and Japanese Embassies. Not long ago she taught six young fellows precisely the same round of pretty phrases, and at a recent ball they hovered about her like a flock of peacocks.

WHILE Mrs. Gollumano, with her three children, was journeying through Nebraska one of the little ones fell from the car window when the train was at full speed. The train was stopped after some delay and the frantic mother and others hurried back to pick up the mangled remains. They found the youngster unharmed, playing with pebbles alongside of the track.

THE METROPOLITAN PRESS.

What the Editors of the New York Journals are Saying This Morning.

By Telegram to the Post-Dispatch.

NEW YORK, June 7.—THE WORLD says today: "It is truly painful to have Mr. Blaine engaged in a controversy with a stenographer about the correctness of the report of a speech, but the revised edition of his Portland home address raises such an intense question of veracity that the members of his party in private life quite agree with him in his devotion to the truth."

THE SUN says: "Let us hope, though, that the new state in which President Cleveland has entered may make his eye for the past so discomfiting that he will know an unpleasant thing about his eye, and will not tolerate it about him. The Pan Electric cannot be killed too soon."

THE TIMES says: "What Mr. Cleveland is now entitled to is always has been—simple justice, and he never needed it so sorely as he does to-day. This simple justice requires the immediate removal of the man who has been in the official representative of his party in private life quite agree with him in his devotion to the truth."

THE TRIBUNE says: "A President who publishes his own private life in a newspaper, and who has not been 'quicker in the eye' of responsibility is not a comfortable thing to have in the White House. It is a crying need to get elected again by double dealing. It would be natural if Mr. Morrison should reply that the President seemed to want a monopoly in his party of the privilege of riding two horses at once."

A Bogus Vox Populi.

To the Editor of the Post-Dispatch.

If you know of any good reason why Mayor Francis ought to proclaim a half-holiday next Monday for the purpose of putting money in the purse of Charles Green, please state it in your next edition. It is a mistake, in my opinion, to suppose the whole city is engaged in adding to his wealth. Vox Populi.

Could you bring your low line to bear on the Directors of the Exposition Building and also on the Trustees of the First Presbyterian Church, and thereby compel them to pay their bills for sprinkling fourteenth and St. Charles streets, you would confer a great blessing on your humble servant, and also upon business in this vicinity.

A nuisance, let the nature of it be what it may, and the dust in this case is a nuisance. It is so bad of late that it has become an annoyance to the neighborhood, and should be abated at once.
